WORK EXPERIENCE

Welkin Ring Digital Solutions   Faridabad, India
JavaScript Developer (April 2022 – April 2023)

- Developed a comprehensive web application for the Rotary Club Delhi South West's painting competition. The application features a registration form with front-end validations, an **SMS and Email notification system**, and efficient data storage using a **MySQL** database. Technologies used include **PHP for backend, JavaScript, HTML, CSS, Bootstrap (web design), SMTP Mailer, and an SMS Gateway**.
- Integrated HDFC bank's **payment gateway** into a web application, ensuring secure and efficient financial transactions. Implemented robust validation checks and managed data storage using **MySQL. Utilized PHP, JavaScript, HTML, CSS, and Bootstrap** for comprehensive front-end and back-end development.
- Developed **dynamic sliders** for social media platforms, utilizing **Facebook's Graph API and YouTube's Data API** to fetch and display content from Facebook/Instagram pages and YouTube channels respectively. This innovative feature enhances user engagement by showcasing a variety of posts and videos in an interactive slider format.

EDUCATION

Gurugram University   Gurugram, Haryana, India
Masters of Computer Application   (Sept 2023 - July 2025)
Courses: System Design & Operating Systems, Data Structures, Artificial Intelligence, Networking, Databases, Complier Design, OOPs, IOT, Digital Electronics, C/C++, Java

Maharshi Dayanand University, Rohtak   Faridabad, Haryana, India
Bachelor of Computer Application; Percentile: 75%   (Aug 2019 - June 2022)
Courses: Operating Systems, Data Structures, Artificial Intelligence, Networking, Databases, Software Engineering, OOPs, E-Commerce, Digital Electronics, C/C++, Java

Modern B.P Public School   Faridabad, Haryana, India
Class-12 [PCM]; Percentage: 80%   (July 2017 - June 2019)

SKILLS SUMMARY

Languages	C, C++, JavaScript, Java, HTML/CSS, PHP
Frameworks:	React.js, Node.js, Express.js, Bootstrap
Tools:	GIT, GitHub, VS-Code, Thunder client
Databases:	MongoDB, MySQL
Platforms:	Windows, Firebase
Soft Skills:	Leadership, Event Management, problem solving skills, excellent verbal communication

PROJECTS

Ecommerce Store (ReactJS) – demo-link

- Developed an e-commerce application named "Meri Dukan" using **React.js**, which includes features like product filtering by category, company name, and price. Implemented a cart system where users can add products, check the total price, and all cart details are saved in local storage for persistence.
- Utilized **BrowserRouter** for routing and **BrowserAuth** for login authentication via **Google or GitHub**. Hosted the application on **Netlify** for easy access and better user experience. Used modern React features and hooks such as Context API and useReducer Hook for state management.

Full-Stack Blogging Application with Node.js, EJS, and MongoDB Blog Management – demo-link

- **Blog Management**: Enabled users to create, read, edit, and delete blogs, providing full control over their content.
- **User Authentication**: Integrated signup, login, and logout functionalities along with a forgotten password feature for password reset. Incorporated **bcryptjs** for password hashing to ensure data security. File Handling: Utilized **multer** middleware for handling multipart/form-data for file uploading. Also, backend Hosted and frontend developed using EJS.

NewsMaster (ReactJS) – demo-link

- Developed NewsMaster, a real-time news website using **React.js**, which fetches and displays news from the **News API** in various categories.
- Implemented advanced features such as a **top loading bar, spinner, and infinite loader** to enhance user experience.
- Utilized HTML, CSS, JavaScript, React.js, and React Router for robust front-end development. Designed the website to be responsive, ensuring optimal viewing and interaction experience across a wide range of devices.
